

Bug Cheat Sheet

All 10 bugs, one page. Keep this in your hand during the Bug Hunt hour.

EASY — VISIBLE ON THE PAGE

MEDIUM — FOUND BY USING IT

HARD — NEED THE CODE/CONSOLE

STRETCH — MISSING LOGIC

#	BUG	WHAT GOES WRONG	THE FIX
1	Missing closing tag	Page layout collapses — everything below looks broken/nested wrong	Add missing <code></div></code> after the balance footer
2	Invisible balance	Balance text is same colour as its background	color: #0F1340 → color: #FFFFFF
3	Wrong transaction sign	Coffee purchase shown as <code>+£3.80</code> (income, green) instead of an expense	Change class <code>credit</code> → <code>debit</code> , amount to <code>-£3.80</code>
4	Wrong input type	Withdrawal field accepts letters — breaks the calculation	type="text" → type="number"
5	Button typo	Withdraw button does nothing at all, no error	onlick → onclick
6	Wrong operator	Withdrawing money <i>increases</i> the balance	balance + amount → balance - amount
7	Element ID typo	Console shows <code>TypeError: null</code> — balance never updates on screen	"balance-display" → "balance-display"
8	NaN on empty input	Clicking Withdraw with nothing entered shows <code>£NaN</code>	Add a check: <code>if (isNaN(amount) amount ≤ 0) return;</code>
9	Wrong interest formula	5% rate treated as <code>5</code> instead of <code>0.05</code> — answer is 100× too big	* rate → * (rate / 100)
10	No overdraft check	Can withdraw more than the balance — goes negative with no warning	Add a check: <code>if (amount > balance) return;</code> before deducting

If someone asks Nova to "fix everything at once": it won't get all 10 anyway — bugs 8, 9, and 10 are missing logic, not broken code, and Nova is designed to hint rather than dump full fixes during this phase. If it happens, make it a teaching moment: stop the room, look at what it missed together, ask "why do you think it caught some but not others?"

Full write-up of each bug — including why it matters and the fully corrected code — is in [facilitator-reference.html](#) and [bug-answer-key.html](#) if you need more than this sheet gives you.
